CONDITIONS OF SALE

COMMISSION

1. A buyer's commission of 10% of the hammer (selling) price will be added, and becomes part of the total purchase price to be paid by the buyer.

BIDDING

2. All Bids are per lot, as numbered herein. We reserve the right to withdraw any lot prior to the sale, to divide a lot or to group two or more lots.
3. The highest bidder shall prevail. It is the sole right of the Auctioneer to settle any dispute between bidders, to offer for resale any lot under question and to regulate the bidding. The auctioneer also reserves the right to refuse any bid he believes not to have been made in good faith.
4. Persons unable to attend the sale may bid via the enclosed bid sheet or by telephone by using our WATS 800-221-7276. New York State residents may call 212-751-1900. We will be pleased to assist you in bidding, answer any questions regarding a lot, or give you more information on any lot(s).
5. May we suggest bids that make sense. Offering \$100 for a \$1000 coin only wastes your time and ours. While it occasionally happens that a bargain can be obtained at auction, most coins will sell for a price fairly close to their actual value. Please keep this in mind when bidding by mail. And, regardless of "lucky numbers" we would appreciate it if bids are not offered in odd amounts. Such bids will be automatically reduced to the lowest whole number. (\$102.34 becomes \$100.00).
6. HRN as cataloguer and auctioneer reserves the right to offer at this sale its own material and also may bid on any lot for its own account. Consignors also have the right to bid on their own material.

PAYMENT

7. Payment shall be in U.S. Funds. All bidders, floor or via mail or telephone shall pay for their lots in advance of delivery unless prior arrangements have been made. Successful mail bidders shall be notified of lots won and must remit prior to lots being shipped. A charge for postage, insurance and handling shall be added, as well as appropriate New York State Sales Tax where applicable. Exemption Certificates must be on file with us prior to the sale. Receipt from a reputable carrier shall constitute delivery by us.
8. Title shall not pass until payment in full for won lots has been received. A late charge of 1½% per month shall be imposed on overdue payments.
9. Placing of a bid shall constitute an agreement between buyer and seller and acceptance of the foregoing terms.

GUARANTEES

10. All items offered in this catalogue are guaranteed as to date, mintmark, metal, specialized catalogue number (such as Sheldon) attribution and of course, authenticity. Lots on which description is incorrect according to the above, are returnable with advance permission from HRN. Disputed lots must be returned intact in their original containers, within 10 days of receipt. Lots are not returnable for any reason (other than a question of authenticity) if:
 - a) You are a floor bidder, even if you did not view the lot.
 - b) You viewed the lot prior to the sale.
 - c) The lot contains more than one coin.
 - d) A photograph of the lot in question appears in the catalogue and clearly shows any defect not noted in description.
 - e) You cannot afford the lot. Bids placed in an auction are legally binding. Please check your finances prior to bidding.
 - f) You simply do not like the coin even though the description is correct. An auction sale is NOT an approval sale and is NOT conditional.
 - g) More than thirty days has elapsed since the day of the sale.

DESCRIPTION

11. The grading of any coin is a matter of interpretation of the features of that coin as seen by the grader. Grading is NOT an exact science but an art. It is a blending of what the grader sees added to his knowledge of coins in general and of the specific characteristics of the coin in question, plus his experience and awareness of current grading practices as well as market conditions.
The grades represented herein are a reflection of our experience and expertise in the art (not science) of grading and our awareness of the numismatic field at this particular time. They reveal our best opinion of the state of preservation of the item, and are in accordance with most presently used guides on grading as we interpret them. No warranty, expressed or implied, is extended to such opinions and interpretations.
Finally, please be aware of the price paid for a coin. In many cases a lot may not meet your expectations, but you have purchased it for a substantially reduced price. Please keep this in mind when deciding if a lot is satisfactory.

NEW YORK CITY CHECKS

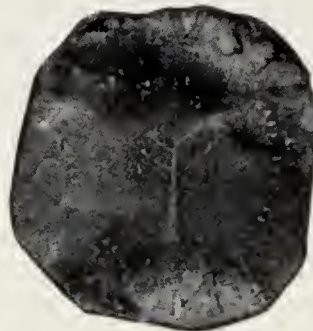

A most interesting lot of early New York City official checks, each signed by the Mayor at the time for various expenses incurred in the running of the City. Many famous early names, appear known today by streets, roads, parks etc., which were on their property. Most are in excellent condition, a very few a little foxed or dogeared, but the overwhelming majority is fresh and clean.

Estimate

1. **Jacob Radcliff, Mayor**, these dated 1810, many also signed by Jacob Morton, Clerk and G.M. Bleeker, Comptroller, after whose family Bleeker Street is named. 8 in. x 5 in., crisp and clean, with X-shaped cancellation embossed, not cut out. Most interesting lot of 40 pieces. (400.00)
2. A similar lot of 35 pieces, just as above, but, of course, made out to different people for different purposes. (350.00)
3. Another lot, as above but these checks a bit smaller, 8 in. x 4 in., equally nice condition, same signatures and same cancellation. Lot of 40 pieces, nice. (400.00)
4. Another lot, similar to above, 40 pieces. (400.00)
5. Similar lot, this containing 38 pieces. (380.00)
6. **William Paulding, Mayor**, and again signed by Jacob Morton and Bleeker in addition, as above. These checks are all dated 1825, 6¼ in. x 3⅞ in., drawn on the Mechanics Bank of New York and again feature many well-known names. Generally lovely condition with an occasional sub-par piece included. Same cancellation as above. Lot of 50 pieces. (500.00)

UNITED STATES COLONIAL COINS

21. **Pine Tree Shilling**, 1652, large planchet, Noe-2, sea salvage found off the Nova Scotia coast in 1979, probably was Uncirculated when sunk, now quite crystallized, but very interesting.

22. **Virginia Half-Penny**, 1773 with period after George. Nice Uncirculated from the hoard, reverse shows considerable mint red, somewhat less on the obverse. Lovely example.
23. **Nova Constellatio**, 1783, 2-B, pointed rays, small U.S. with numerous die lumps on both sides, as well as some (probably) removable detritus scattered about. Very Fine.
24. **Massachusetts Cent**, 1787, Ryder 3G, strong Very Fine with a few light scratches, still decent.

25. **Connecticut** 1788, Miller 5-B, interestingly struck over a Nova Constellatio. Several stars are visible beneath 'Connec' with other light traces identifying the undercoin. Strong Very Fine.
26. **New York** (Nova Eborac) 1787 with reverse figure seated left. Reverse letters generally weakly struck as is the date, with three deep old scratches thru the figure, obverse much nicer showing a slight edge bang at 7 o'clock. Surprisingly nice even with all this.

27. **New Jersey Cent** 1787, M-34J, struck over a **Connecticut Cent**. Obverse legend reads 'NDE CAESAREA' with hand and branch protruding from the back of the horses neck. Reverse legend reads 'AUCTIONIBUS UONUM'. Old gouge in shield, else better than Very Fine. Most unusual.
28. **New Jersey Cent**, M-56n, struck over Machin Mills 1775. Obverse legend reads 'I NOVA CREA S', reverse shows date, 1775, above shield. Another very interesting piece, Fine condition.
29. **Vermont** 1785, 'Vermonts' type, Ryder 4. Struck on such a poor planchet that shape is irregular with a deep obverse flaw, etc. Use of such poor planchets is not unknown for these, but this is about the worst we have ever seen!
30. **Vermont** 1787, R-12, struck over a Nova Constellatio. Reverse shows the eye at center, with script 'US' mostly visible over the portrait. Another unusual piece, just about Very Fine.
31. **George Washington** 1783 'Unity Cent' typical Very Fine with a few light old flaws.

32. **Washington Cent** 1791, lettered edge, small eagle. Nice chocolate brown coin which falls just a hair short of Extra Fine.

33. **Fugio Cent 1787, K-11B**, sharply struck, many die clashes show as well as a couple of other die flaws. Underblush of mint red on obverse, a truly beautiful example of this rare (R-6) piece, seldom seen in **Uncirculated** state, as is this.

34. **Fugio Cent 1787, K-11X**, a beautiful **Uncirculated** coin with even mint red visible on both sides, strong clash marks evident, a most lovely example of this piece, usually called our first coin. Would be hard to improve upon!

35. **Final Fugio, K-12M**, and most unusually struck, with the motto doubled, one almost at right angles to the other as well as numerous clash marks showing under the rings. **Extra Fine**, a real conversation piece.

HALF CENTS

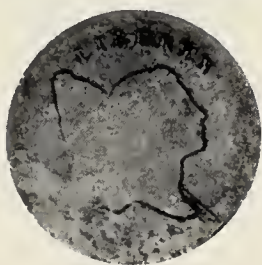

36. **1793 Nice Very Fine** with tiniest mint-crescent above 'of', C-3. A few tiny digs are evident, a couple of old, light scratches, these mentioned more for accuracy than as detractors.

- 37. **1794** Scarce chocolate-brown piece, C-2a, just **about Extra Fine** in point of wear, no real flaws, very slightly rough planchet-wise, but an eye-catcher and nothing to be ashamed of if it winds up in your set!
- 38. **1794** Poorly struck C-4a, 'TY' missing, 'America' vestigial, fraction invisible, tiny cut on '4', triangular flaw where 'T' (obverse) should be. Else Very Good (?).
- 39. **1794** Obverse is Fine+, pinhole in 'R', other minor flaws inherent in the grade, C-9. Reverse shows right wreath, legend visible but weak.
- 40. **1795** With pole, C-2a, Very Good, planchet shows several light wavy cracks across the obverse due, no doubt, to flaws in the alloy. 'Half' only partial.

- 41. **1795 Extra Fine** with a mint-made flaw on the edge at 7 o'clock, and a tiny amount of copper uneven, C-5a, B-5a. A beautiful and **scarce** piece.

- 42. **1796 The key date.** C-2, B-2. Rare in any condition, this is rather granular, date not quite legible, but clearly 1796 due to the single-leafed wreath on the reverse, the only half-cent to have this. Outside of the mentioned flaws, coin grades at least Fine. Ex-Jack Beymer.

 NYS 212-751-1900 Out of State 800-221-7276

43. **1797 Struck over Talbot, Allum and Lee**, as often, with much undercoin visible, C-1, B-1. Legend reads 'Libertyork' with 'And Lee' clear above it. Very Fine, a few light scratches.
44. **1800 Strong Extra Fine** with several old scratches across the obverse, C-1, B-1.

45. **1802/0** Overall grades Fine but with a couple of edge bangs, some old, light scratches, etc. C-2, B-2. Still scarce.

46. **1803 Lovely choice Extra Fine**, some might see it even better, C-1, B-1. Lovely tan, some mint-lustre shows.
47. **1804 Crosslet '4' with spiked chin**, C-6, B-6. Nice Extra Fine.
48. **1804 C-9, B-8, (VG) and C-10 (F), and 1805 C-1 (EF)**, with light edge bang at bust end, and a couple of field scratches. Three coins.
49. **1804 Lovely Extra Fine+** with light rough area in right field opposite profile, C-13, B-10.

50. **1805 Large '5'**, Extra Fine with tiny laminated spot on cheek, C-4, B-4. Pretty, deep brown color.

51. 1806 Small '6', Extra Fine with light planchet flaw behind knot, hardly visible, C-1, B-3.

52. 1806 Large '6', and a lovely **Uncirculated**, C-4, B-4, with a silky surface, tan and blue and very appealing to the eye. Some slight weakness of strike is apparent on the reverse, typical of the die.

53. 1807 Early die state, nice Extra Fine, usual weakness of strike at centers, nice-looking.
 54. 1807 Late die state (II), just shy of Very Fine, but nice.
 55. 1808/7 An interesting variety in Very Fine but with a somewhat granular planchet, not too bad, but there, C-2, B-2.
 56. 1808 C-3, 1809 C-3 and 1809 C-4. Three coins all Fine.

57. 1809/6 Nice even tan **Uncirculated**, C-5, B-5, attractive but not flashy. Very popular variety.
 58. 1809 Deep chocolate, Extra Fine, C-6, B-6.

59. 1810 Lovely **Extra Fine** with a beautiful smooth planchet, not too often encountered in this series.

60. 1811 Very Fine in point of wear with several tiny pits and a few other marks scattered about, C-2, B-2. Not bad, and still quite scarce.
61. 1825 Lovely choice Extra Fine, C-2, B-2.
62. 1826 Choice iridescent AU, C-1, B-1. A lovely looking piece.
63. 1828 12 star variety, much sought-after, C-2, B-3. Strong Extra Fine or even a little bit stronger.
64. 1828 13 stars, C-3, B-2. Nice light tan Extra Fine+ with small dark spot at 'OF' on the reverse.
65. 1829 Just a nice in-grade Extra Fine, with some remnants of mint color, C-1.
66. 1832 Strong AU, some mint color remains, looks Uncirculated, C-1, B-1. Nice coin.

67. **1833** Gorgeous silky-brown BU, some light mint-red evident on the reverse, much better than BU-60, at least BU-63, a winner!

68. **1834** Beautiful rainbow-toned BU, red, blue etc. A most pleasing coin to behold!

69. **1835** Iridescent and rainbowed, C-2, B-1, proof-like and almost never seen thus. Only the presence of clash-marks prevents us from calling it PROOF, as it has all other characteristics, including a couple of light marks, etc., nothing serious.
70. 1837 The so-called 'token', nice Extra Fine.
71. 1826 C-2 (VF); 1832 C-2 (VF); 1835 C-1 (VF) and 1835 C-2 (EF, a bit scratched). Four decent coins.
72. 1850 Nice brown AU.
73. 1853 A nice Uncirculated, slightly iridescent, some mint red about as well as a few spots, all very tiny. Looks nice.

74. 1854 Beautiful deep-brown Uncirculated, better than a BU-60, nice.

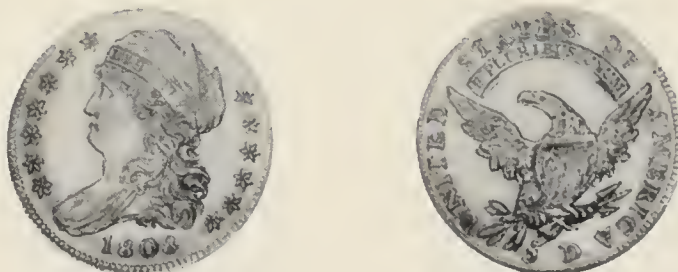

75. 1855 Another lovely **Uncirculated**, semi-proof-like, deep color with a lovely smooth surface, would look good in any set.
76. 1857 Much subdued mint red, BU, a few specks which are hard to see, but all-in-all a very nice example.
77. 1849, 1851 and 1856. Three nice Extra Fine coins.

UNITED STATES GOLD

78. **\$3.00 1888** A Choice **Uncirculated** example with **blazing mint lustre**. Next to the last year of issue with **only 5,000** business strikes minted. A few imperfections, but still worthy of strong bidding.

79. **\$5.00 1808** Second year of the capped bust type and the normal date variety. Technically **almost Uncirculated** but has **much eye appeal**. Weak denticles at 12 o'clock and a small scratch about 8th star, but still very desirable.

80. **\$20.00 1907 HIGH RELIEF** Wire Edge variety. A nice **Choice Extra Fine** example of one of the United States more notable coins. Minor edge flatness at 6 o'clock but barely noticeable. Most lustre remains and usual light abrasion found in a lightly circulated piece.

81. **1907 HIGH RELIEF** Another example of the Wire Edge variety in nicer condition than the previous, but with some apparent defects. An edge cut above 'l' of LIBERTY and two more reverse edge dings are the most noticeable. Still **Mint State** and quite desirable.

A CHOICE QUALITY TYPE COLLECTION

82. **1858 FLYING EAGLE CENT** Beautiful original example of the small letter variety. Excluding strike, probably **Gem BU**. Minor edge nick over 'l' of UNITED and a soft 'ONE', otherwise problem free and **eye-catching**.
83. **1866 SHIELD NICKEL** with rays. First year of type and a well-struck example. Some light obverse die cracks and a tiny scratch after 'TRUST', still Uncirculated and nice.

84. 1872 SHIELD NICKEL Choice BU-63.

85. 1884 LIBERTY NICKEL Choice **PROOF**. Brilliant and spotless with under 4,000 pieces struck.
86. Two Type Nickels - 1883 Liberty 'No Cents' in Choice BU and a 1913 Buffalo Type I approaching Gem state.

87. 1855 **Arrows** SEATED LIBERTY QUARTER **Uncirculated** but with scattered abrasions. Reverse is choice and overall has nice eye-appeal.

88. 1883 SEATED LIBERTY QUARTER. A **Low** mintage year (15,000+) and a **PROOF** example. Extremely brilliant but light hairlines under magnification.

89. 1917 Type I **STANDING** LIBERTY QUARTER. Lovely light brown-gold toning adds to the eye-appeal of this piece. Full head but minute reeding impression on Liberty's chest, nevertheless **Choice BU**.

90. 1923 Quarter. Pretty pastel Choice BU.

91. 1807 DRAPED BUST HALF DOLLAR. A **spectacular example** of the last year of this type. Technically some light friction noticeable under magnification, but **incredibly proof-like** obverse fields command the viewers attention. Seemingly a specimen strike and will attract spirited bidding.

92. 1845-O SEATED LIBERTY HALF AU-50 with a very noticeable recut date.

93. 1853 Arrows and Rays A tad nicer than the previous lot and will fit well into any respectable type collection.

94. 1867 Seated Liberty Half Dollar A slightly better date in **Choice PROOF**. Light original toning and some very light hairlines. Very attractive and getting more difficult to locate all the time.

95. **1873 Arrows** Seated Liberty Half Dollar An **Uncirculated** example of a popular and difficult type coin. One minor edge nick at 12 o'clock reverse but still very attractive.

96. **1897 BARBER** HALF DOLLAR A **fabulous PROOF** example of the Barber type with lovely cameo feature. A **Gem quality** piece with a few light hairlines identifiable only under intense scrutiny. **Only 731 pieces struck** surely making this one of the nicest available.

97. **1938 PROOF** WALKING LIBERTY HALF DOLLAR Light cloudy toning over **flawless surfaces**. A good Choice for collector or investor alike.
98. **1950 FRANKLIN** HALF First **PROOF** edition of the type with a few slidemarks on the high points from an album, otherwise **Choice**.

IMPORTANT NOTICE

In accordance with the terms of sale, each successful bidder also agrees to pay a buyer's charge of ten percent (10%) of the winning bid recognized by the auctioneer.

99. 1871 Seated Liberty Dollar A brilliant **PROOF** example with no obvious defects except for the usual hairlining found in coins of this size. Quite eye-catching and always becoming more scarce.

100. 1880 **TRADE DOLLAR** A **PROOF** only year with just 1,987 pieces struck. This example is in extraordinary condition. A few barely noticeable hairlines and two tiny lintmarks are the only surface defects worthy of note. A **Choice** specimen and would improve most any type set.

101. 1880 **PROOF MORGAN DOLLAR** A high grade example with strong cameo appearance. Two seemingly mint-made lintmarks above the eye and at the corner of the mouth and deep lovely fields characterize this Choice offering. A rare coin in superb condition.

102. 1928 **PEACE DOLLAR** A lightly toned example of this key date approaching **Choice BU**.

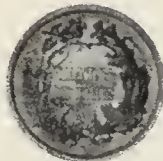

103. 2¢ 1864 Large Motto. Attractive brown-gold **MS-64**.
 104. 2¢ 1865 A lustrous **MS-63** + partially toned, plus a 3¢ nickel 1866, **BU-60** +.

HALF DIMES

105. 1853 Arrows Blue-toned **MS-60** + with rainbow reverse.

106. 1858 Steel-gray and fairly well struck **MS-64**.
 107. 1862 Deep violet color but a small dig under 'OF', otherwise **BU-63**.

108. 1862 Another but this, **Gem BU**. Beautiful violet, blue and burgundy toning. Well struck and lustrous.
 109. 1872 Much lustre and perhaps better than **MS-60**.

110. 1872 This **PROOF** example is the nicest Half Dime offered here. Original toning and **superb surfaces** qualifies it as at least **Proof-64**, reverse possibly nicer. **Only 950 minted**.
 111. 1873 Nicely toned super slider, plus a 1924 Buffalo nickel **BU-63**, but for a thin scratch across buffalo's leg.

DIMES

- 112. 1857 BU-63 example toned a deep green-gray color.
- 113. 1891 Lustrous, lightly toned BU-60.
- 114. **1891** Another, this **Choice BU** with gray-gold color. Two small scratches in right obverse field.
- 115. **1906 BARBER DIME** Quite lustrous with toning similar to the previous lot and falls into the **BU-63** category.
- 116. **1908** Even nicer than the 1906. Burgundy-gray, and makes MS-64.
- 117. **1912D** Lightly toned **MS-63**.

QUARTERS

- 118. **1854 SEATED LIBERTY** Light fingerprint remains but better than BU-60.

- 119. **1854 Arrows Rainbow** obverse and better than BU-60.

- 120. **1876CC Frosty** original example, grading **BU-64/65**. Always in demand by collectors.

- 121. **1892 BARBER** Toned Choice BU.
- 122. **1903-O** Some obverse **proof-like** appearance enhances this example. Pretty toning, **BU-63/64**.
- 123. Three **WASHINGTON QUARTERS** 2 x 1932 and 1935S, all Gem BU.

HALF DOLLARS

124. **1829 Bust Type** Overton-114, Rarity-3. Steel-gray toned slider Uncirculated.

125. **1838 REEDED EDGE HALF** Well-struck and virtually problem free. Lightly toned **BU-63/64**. Reverse die crack through most letters.

126. **1901 BARBER** Toned slider Uncirculated. Stunning blue-peach reverse.

127. **1907 BARBER** High lustre and minimum surface defects brings this to **Choice BU-63** status. Only a few small marks by Liberty's mouth prevents a higher rating. Attractively toned with much **eye-appeal**.

WALKING LIBERTY HALVES

128. **1936** Simply **BU-65**.
 129. **1936S** Close to the preceding gradewise but lightly toned.
 130. **1937** Toned **Gem BU**.
 131. **1937** Brilliant and Choice **BU**.
 132. **1937S** Toned **BU-63**.

133. **1877 TRADE DOLLAR** A flashy **Uncirculated** example just shy of gem status. Minimal defects and shades of blue and gray enhance this lovely type piece.

MORGAN DOLLARS

134. Group of 1884 Morgan Dollar varieties. Two examples of the dot after obverse 'M', one better than MS-60, the other MS-63. One example with dot after 'M' on both sides, proof-like MS-63+ and 'E' under tailfeather variety MS-60+. Four pieces in all.
135. 1883 Toned BU-63, plus 1885 similar.
136. **1885CC Choice BU** example of a popular mintmark. Attractive peripheral toning.
137. Four 1889 Morgan Dollars grading anywhere from BU-60+ to BU-63.
138. Three 1899-O Similar to the previous lot.
139. Three Morgan Dollars 1898 BU-64, 1899-O BU-63, and 1902 BU-63.
140. 1900-O Common date but uncommon quality, BU-64, possibly better.
141. 1888-O Double lips variety (VG); 1900-O/CC BU-63, and 1922 Peace with a large die cud in Liberty's hair, BU-60+. Three unusual and desirable silver dollar varieties.
142. Three Morgans 1903P, two BU-63, one almost.
143. Two 1904P, one MS-63, the other not as nice.
144. Three 1921D all Choice BU, two toned and one brilliant. One of the toned semi-proof-like.

PEACE DOLLARS

145. Two 1923 dollars BU-63 and BU-64, plus 1925 BU-63. Three pieces.
146. 1924 Toned Gem BU and 1925 almost as nice.
147. Two 1925 both Gem BU, one lightly toned, the other more brilliant.

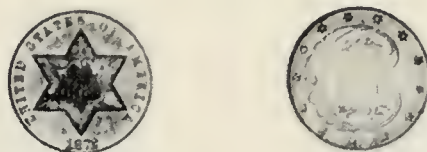

148. **\$1.00 Gold 1874 Type III BU-63.**

149. \$2.50 Liberty Gold 1904 Perhaps better than MS-60.

150. \$10.00 Liberty Gold 1907 Choice BU but hairlines noticeable under magnification. Terrific eye-appeal.

A LAST MINUTE CONSIGNMENT

151. 3¢ SILVER 1872 Low mintage date (only 1,950 pieces of which 950 were Proofs). Beautiful rainbow gem example with no defects worthy of mention.

152. 10¢ 1805 A choice specimen of the draped bust type. The five berry variety and naturally toned in shades of gold and gray. Well struck for the type, but exhibits the barest trace of cabinet friction. A pleasing coin.

153. 10¢ 1870S An extremely difficult date to locate in high grade with deceptive mintage figure (50,000 struck). This example Choice BU with satiny surfaces. Small scratch under foot and softly struck denomination are mentioned for accuracy.

154. **1821 PROOF BUST QUARTER** From the Browning-5 die. Reportedly only 8 pieces known to exist. Fully struck with obverse star centers and center dot showing. Reverse exhibits blue peripheral tone, and obverse more towards gray-brown. Light hairlines from a long ago cleaning but overall approaches Choice condition. Few will be offered.

155. **\$2.50 1832 CAPPED BUST TYPE**, reduced size variety. Technically Uncirculated but lacking the lustre of a mint state piece. Well struck with sharp denticles and hair curls. A desirable coin missing from many type sets.

156. **\$2.50 1906 PROOF** Brilliant example with some light abrasion but minus usual hairline found on most gold Proofs. Overall MS-60+ with only 160 pieces struck.

- 156A. **Mormon Banknotes.** A set of seven pieces: \$1.00 (3/29/1858); \$2.00 (4/1/58); \$3.00 (2/20/58); \$5.00 (4/22/58); \$10.00 (4/8/58); \$20.00 (2/17/58) and \$50.00 (2/22/58). The \$2, \$3, \$20 and \$50 are signed by Brigham Young, however, the evidence is strong that this set is an example of the infamous Mark Hofmann forgeries, which were being offered around in 1984. This particular set is NOT being offered as a genuine set, since it has been examined by several knowledgeable persons in the field and has not been okayed, even though there may be a remote possibility that some of the pieces are real. It was purchased from an agent of Mark Hofmann late in 1984 who also handled some genuine material traded from the Mormon Archives (as did Hofmann). If genuine, the set would be worth upwards of \$10,000. As forgeries?
